### Group Outlook for 2015 Revised, Mid-Term Outlook (2016) Withdrawn on 16 July 2015

Outlook	2014 actuals	Previous outlook for 2015	New outlook for 2015 published on 16 July 2015	Mid-term outlook (2016)
Net sales growth (organic)	EUR 1,901.6 million, organic growth -3.7%	"Around previous year's development (2014: -3.7%)"	"Around previous year's development (2014: -3.7%)"	No outlook for 2016 (previously: "Organic growth")
Operating profit margin, excluding non-recurring items	EUR 118.8 million, 6.2% of net sales	"At or above previous year's level (2014: 6.2%)"	"Above 4% (2014: 6.2%)"	No outlook for 2016 (previously: "Around 10%")

Outlook for 2016 will be given in conjunction with FY 2015 results in February 2016

Divestments and acquisitions done estimated to have impact on net sales of around EUR -110 million in 2015

### **Reasons for Changes in Outlooks**

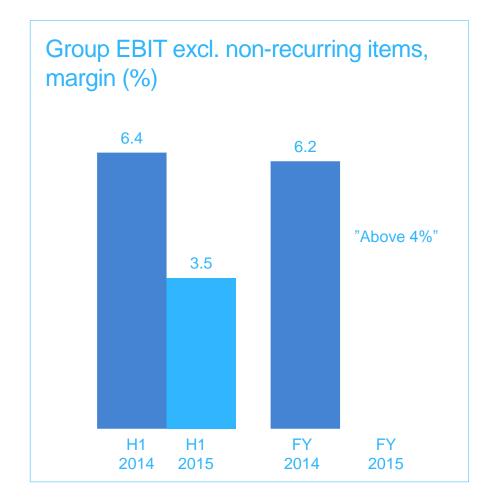

H2 2015 and FY 2016 expected to be weaker than anticipated – Media Finland the main reason

#### Media BeNe

- Overall no changes
- Media Finland
- Depressed market development
- Operational underperformance, incl. additional amortisations in TV operations

#### Learning

- Legislative changes in Polish market
   Other
- Russian market situation and delayed transactions

### **Amortisations in Finnish TV Operations**

#### International TV rights

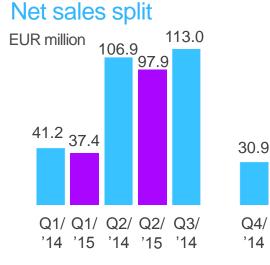

- Demand for domestic TV content has increased in highly competitive market
- Sanoma booked in Q2 2015 additional amortisations of EUR 6 million related to previously acquired international TV rights of series and movies
- TV rights for Finnish ice hockey league
  - Sanoma acquired rights for seasons 2013-2018 in 2012
  - Sales have not developed according to business plan
  - Investment case now estimated to be negative for whole period until 2018
  - Valuation for season 2015-2016 will be done in Q3 leading to an additional amortisation of EUR 3 million in 2015 (net), of which EUR 6 million in Q3.
     Hence, in Q4 amortisations will be around EUR 3 million less than in Q4 2014

In accordance with IFRS, at reporting date balance sheet value of programme rights is evaluated to ensure carrying amount does not exceed expected future economic benefits. If economic benefits are insufficient, programme right is amortized to its recoverable amount.

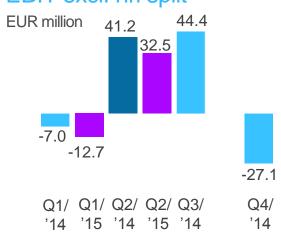

### Learning – Timing Shifts Impacting Quarterly EBIT

- Learning has strong seasonality typically around 75% of sales and 160% of profits generated during Q2 and Q3
- Industry trend changing, wholesalers optimise working capital by ordering later – the impact was visible in Q1 and Q2 2015 and will be visible especially in Q1 2016
- In addition, Q4 2015 will be better than prior year due to timing shifts in expenses

#### EBIT excl. nri split

Media BeNe:	TV net sales flat thanks to market share gains and higher distribution sales. Print magazine sales declined, driven by divestments and closing of titles.
Media Finland:	Double-digit growth in online & mobile sales was not able to offset declining print sales. TV and radio sales were flat. Divestments impacted negatively.
Learning:	Net sales declined mainly due to timing of orders in Poland and Finland as well as legislative changes in Poland.
Other:	Decline is related to divestment of Hungarian media operations and weaker sales development in non-core operations.
